

Xie Chen

Division of Physics, Mathematics and Astronomy
California Institute of Technology
1200 E. California Blvd, MC 149-33
Pasadena, CA, 91125

Tel: 1-(626)-395-3793
Email: xiechen@caltech.edu
Office: 163 W. Bridge

Academic Appointments

2024.3 – now	Eddleman Professor of Theoretical Physics	Caltech
2019.11 – now	Professor	California Institute of Technology
2017.7 – 2019.10	Associate professor	California Institute of Technology
2014.7 – 2017.6	Assistant professor	California Institute of Technology
2012.8 – 2014.6	Miller research fellow	University of California, Berkeley

Education

2006.9 – 2012.7	Ph.D. in theoretical physics	Massachusetts Institute of Technology
2002.9 – 2006.6	B. Sc. in physics	Tsinghua University

Research Interest

Topological phenomena in strongly correlated quantum many-body systems.
Topics include: topological defects and non-invertible symmetry; fracton order; symmetry protected topological order; symmetry fractionalization; quantum dynamics and information scrambling; tensor network representation; quantum information applications.

Awards and Honors

- 2021 Simons Investigator
- 2020 New Horizon in Physics Prize
- 2018 APS Outstanding Referee.
- 2017 Caltech Graduate Student Council Excellence in Teaching Award.
- 2017 Sloan Research Fellowship.
- 2017 National Science Foundation Faculty Early Career Award.
- 2012 Miller Research Fellowships from the Miller Institute for Basic Research in Science of UC Berkeley.

Publications

Preprint

1. David T. Stephen, XC, “Fusion of one-dimensional gapped phases and their domain walls”, arXiv:2403.19068.

Book

Book title: Quantum Information Meets Quantum Matter -- From Quantum Entanglement to Topological Phase in Many-Body Systems

Series title: Quantum information Science and Technology

Authors: Bei Zeng, XC, Duan-Lu Zhou, Xiao-gang Wen

Publisher: Spinger Science+Business Media, LLC, 233 Spring Street, New York, NY 10013 U.S.A.

Preprint: arXiv:1508.02595.
